

A-250P-5 Shown here with custom wrap

Model A-250P-5 “Hot Hearth” Cremation Equipment

The American A-250P-5 is Ideal for High-Volume facilities that desire completely private cremations while processing multiple pets at the same time. Our Multi-Chamber units are truly independently operated chambers. The A-250P-5 has one large chamber in the front and two medium chambers on each side. Each chamber has independent combustion control allowing for the operation of a single chamber or any combination of all five chambers. The A-250P-5 will allow your business to achieve a level of service to your clients that is unparalleled. All of the American models come standard with independent hydraulic loading doors, no counterweight or “cooler” style loading doors. Multi-Chamber units can be wrapped for a very appealing visual experience for your clients while witnessing of private cremations.
